Warrant for Annual Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Amherst in the County of Hillsborough in said State, Qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said town on Tuesday the 8th day of March at nine of the clock in the forenoon, to act upon the following subjects:

- 1. To elect one selectman for a term of three years.
- 2. To choose all other necessary town officers.
- 3. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation for the same.
- 4. To see if the town will vote to raise and appropriate the sum of \$1983.00, the state to pay \$1487.25, for the purpose of constructing a state-aid highway connecting up the existing state highway of Milford and Mont Vernon.
- 5. To see if the town will raise and appropriate the sum of \$50.00 to buy stage scenery made by C. W. Going, which has been in use for a year; actual cost of scenery without labor was \$62.50.
- 6. To see if the town will vote to raise and appropriate the sum of \$300, state to pay \$75.00, for the eradication of Pine Blister Rust.
- 7. To see if the town will vote to raise and appropriate the sum of \$2000 to buy the Parker place on Foundry street for an addition to cemetery.
 - 8. To see if the town will vote to install two street

lights on North street and raise and appropriate money for the same.

- 9. To see if the town will vote to change doors in Town Hall so they will swing both ways and raise and appropriate \$75 for same.
- 10. To see if the town will vote to dig well for town hall water and appropriate money for the same.
- 11. To see if the town will vote to move the old Fire bell from the engine house in the village to Baboosic lake and raise and appropriate the sum of \$25 for the same.
- 12. To see if the town will vote to accept from the estate of Bertha I. Maxwell trust funds, interest to be used for perpetual care of cemetery lots as follows: \$200.00 for the Sawtell-Maxwell (Edward P. Sawtell and Frederick W. Maxwell) lot in Meadowview cemetery. \$100.00 for the Wilder Read lot in Meadowview cemetery. \$100.00 for the Eli Sawtell lot in Meadowview cemetery. \$100.00 for the Eli A. Sawtell lot in Meadowview cemetery.
- 13. To see if the town will vote to raise and appropriate the sum of \$100 for paint and labor on town hall roof.
- 14. To transact any other business that may come before said meeting.

Given under our hand and seal this 19th day of February, nineteen hundred and twenty seven.

WALLACE CHILSON PERCY M. ODELL

Selectmen of Amherst.

Warrant for School Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District of Amherst Qualified to Vote in District Affairs:

You are hereby notified to meet at the Town Hall in said District on the 8th day of March 1927, at 2 o'clock in the afternoon to act upon the following subjects:

- 1. To choose a Moderator for the coming year.
- 2. To chose a Clerk for the ensuing year.
- 3. To choose a Member of the School Board for the ensuing three years.
- 4. To choose a Treasurer for the ensuing year, July 1, 1927 to June 30, 1928.
- 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
- 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
- 7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
- 8. To see if the dstrict will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
 - 9. To see how much money the District will raise

and appropriate for repairs and alterations of school property and for new equipment.

10. To transact any other business that may legally come before said meeting.

Given under our hands at said Amherst this 15th day of February 1927.

GEORGE L. GOODALE, LEON BOUTELLE, MELVIN W. PERRY, School Board.

FREDERICK W. BROWN, Treasurer Amherst School District.

July 13, 1926.

AUDITOR'S CERTIFICATE

(Required by the State Board of Education from all State Aided Districts.)

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Amherst, N. H., of which the above is a true summary for the fiscal year ending June 30, 1926, and find them correct in all respects.

CHARLES W. GOING, RODNEY H. PRINCE, Auditors.

July 13, 1926.

ABSTRACT OF CLERK'S REPORT

To State Board of Education, School Board and Selectmen. District Revenue voted March 1926 for Fiscal Year July 1, 1926 to June 30, 1927

Amount appropriated for	
Support of High School	\$2,476 00
Support of Elementary School	9,325 00
Salaries of District Officers	217 00
\$2 per capita tax for supervision	482 00
Supt.'s salary and expenses of administration	600 00

Total Amount of Money to be Raised by
Taxation \$13,100 00

WILLIAM W. SLOAN, Clerk of the School District.

March 9, 1926.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Amherst:

I herewith submit my eighth annual report, which is also the twentieth in the series of such reports:

Organization of Supervisory Union No. 40

This union was organized in 1919, by the State Board of Education, at the time supervision in New Hampshire became state-wide. The original four districts make up this union, namely, Amherst, Brookline, Milford, and Mont Vernon. The several School Boards of these districts together constitute a joint board. This board nominates the Superintendent of Schools, who is elected by the State Board of Education, and who serves under a written contract. The Superintendent's salary is fixed by this joint board. The state pays \$2000.00 toward the salary, and any amount in excess of this \$2000.00 is apportioned among the districts as the joint board may agree. The present arrangement is for the four districts to pay respectively, 25%, 10%, 60%, and 5%.

Teachers and Enrollment

Five rural schools and the Village are open this year. Teachers in the rural schools are as follows:

Border Street, Miss Katherine Gogan, continuing from last year.

Cricket Corner, Miss Barbara Scott, of Hollis, and a graduate of Keene Normal this last June.

Greeley, Miss Lillian Richardson, who taught at North No. 8 School last year.

North No. 8, Miss Clara J. Henry, of Concord, and Concord Training School.

Ponemah, Miss Charlotte Boutelle, who has taught for us for several years.

At the Village building, Mr. Millett and Miss Leonora Mann declined re-election, and their places were taken by Mr. Jesse J. Morgan of Sherman Mills, Me., a graduate of Dartmouth, and Miss Catherine Swett, a graduate of the University of New Hampshire. Grades VII and VIII are being conducted in rurals, except at Border Street, where pupils attend the Village School. and at Cricket Corner, where due to pressure of enrollment, such pupils are conveyed to the Village School. Miss Jenkins, with Grades I, II and II, continues to enroll a large number of children—Grade 1 13, Grade II, 10. and Grade III, 11. Miss Durgin has ten in each, four and fifth grades, and nine in the sixth. Grades 7-12 on the upper floor receive the benefit of departmental instruction, and are under the direct administration of Headmaster Morgan. The work of these grades will be discussed in the Headmaster's report.

Music

Music is more and more being considered an essential school subject. Among the ancients, music ranked as one of the chief subjects for study. Unless teachers have special training for teaching vocal music to school boys and girls, results will be very meagre. The only

In planning the budget for 1927-1928, the School Board have included an item under teachers' salaries for instruction in music. A full time teacher is not needed, hence a combination with other nearby towns is the most feasible way to handle the situation.

Buildings and Equipment

For many years the annual reports of school officers have urged that running water and modern toilets be installed at the village building to replace the unsanitary and unsightly outhouses. Finally when the prospect of a town water system seemed unlikely to materialize. Mr. Perry, Chairman of the School Board, announced to the audience assembled at the high school graduation in June 1926 that a public meeting would soon be held by the School Board to find out the attitude of the citizens in the matter. At this public meeting Mr. Perry presented the needs with plans showing the proposed changes and urged immediate action. There being no opposition the School Board proceeded during the summer of 1926 to make the alterations and additions at an approximate cost of \$3100. The changes include a new well with pressure tank operated by an electric pump; flush toilets, inside the buildings; drinking fountains; a new stock room; a new flight of stairs from the east

entrance to the second story; a new coat room for the primary room and a re-arrangement of doors in various rooms. The old outhouses have been entirely removed. The carpenter work was under the direction of Mr. George L. Goodale. All of this work has been accomplished with the use of funds already in the treasury so that no extra appropriation was necessary.

Due to these extensive repairs at the Village building, little has been done to the rural schools this last season. The Cricket Corner building should be remodeled as soon as possible, in order to eliminate three sided lighting, and all of the rural buildings could be much better equipped if modern schoolroom heaters were installed.

Good ventilation of schoolrooms is an important item often overlooked in school buildings not erected in recent years. Although we now have a partial system of ventilation, it would be well to consider the installation of an adequate and positive outfit. This can be done without great expense.

In conclusion, I wish to emphasize the importance of cooperation by all if our schools are to give the greatest return for time and money spent.

Respectfully submitted,

HAROLD C. BALES.

REPORT OF HEADMASTER

To the Superintendent of Schools, Amherst, N. H.: I hereby submit my first annual report.

School opened on September 8, 1926, with a total of twenty-five pupils in the high school. Since that date two pupils have been lost and two have been added. Consequently we still have twenty-five in the high school. Eight are seniors in good standing—the largest prospective graduating class for some years.

In the seventh and eighth grades school opened with a total of 23. There were nine in the seventh and fourteen in the eighth grade. At the present time the number is the same in the seventh and we have gained one in the eighth grade. Thus there is a grand total of 49 in the high school room.

Attendance

During the early part of the fall, attendance was very good in all but a few cases. For the first two months the per cent of tardiness was very slight. Winter with its attendant colds has made the attendance drop off at times. However, the cases of tardiness have been rare all the year, and the record is decidedly better than that of last year at this time.

Teachers and Program of Study

Miss Bertha L. Piper teaches classes in History, Latin, Geography and Arithmetic. This makes a total of six forty-minute periods per' day. Miss Catharine Swett teaches three classes each in English and French. Algebra, Geometry, Economics and Business Practices, VII and VIII American History, Commercial History and Geography, and General Science are taught by myself. The program of studies of the school will be found in Headmaster Millett's report for the school year 1925-26.

Training in Public Speaking

In addition to their respective classes, Miss Piper and Miss Swett have shown very great interest in outside activities such as plays, speaking contest and the preparation of pupils for special exercises. One play has been given by the Senior class which reflects great credit on the members of the class and upon the coaches. The members of the Junior class have taken part in one play under the direction of Mrs. L. D. Simpson and are selecting material for a class play, to be given at a later date. The Seniors also hope to present another short play before the end of the year.

The pupils of the High School and from all the seventh and eighth grades of the district entered a public speaking contest held under the auspices of the Souhegan Grange. The work of the children, who had been carefully coached by Miss Piper and Miss Swett, was excellent. Miss Kathleen Hodgson from the village eighth grade received the first prize of \$10. Charles Howard, a senior in high school, received second prize, and Theodore Richards of the same class received honorable mention. This event occured Sept. 29, 1926.

The above mentioned activities give only a relatively small portion of our pupils an opportunity to speak publicly. Consequently we have developed the custom of using a portion of each Friday, from 1.00 to 1.20 P. M., for public speaking by the pupils. Thus all are given an opportunity to recite, report, play or sing, according to their several aptitudes and abilities.

The Worth While Things Our Fathers Learned Are Being Retained

The classes and periods are so arranged that each day the time from 1.00 to 1.20 P. M. is divided between several activities. The reading of the Bible, prayer, and group singing assisted by Miss Swett take up about five minutes. The remaining fifteen minutes of this period are used for some of the worthwhile things that

have been studied for generations. The Friday period has already been described as being devoted to training for public speaking. The other four fifteen minute periods are used for Spelling, Arithmetic, Geography of the United States, Current Events and meetings of the Athletic Association. From time to time there are discussions of various things such a thrift, cleanliness, fair play, toleration, and exercises on music appreciation.

Health Is Essential To Study

The school is in session five hours each day, opening at 9 o'clock A. M. and closing at 3.30 P. M. Between these hours one hour and thirty minutes are taken out for recesses and noon hour. It is a well established fact that pupils need plenty of fresh air and exercise if they are to be capable of getting the maximum from their school work. Consequently the morning recess period of ten minutes is used for good physical exercises. During the warm fall weather the exercises were held out of doors. The coming of winter with its inclement weather necessitated a change and the exercises are now conducted in the school room before open windows. One of the best features of this exercise is the fact that the pupils themselves conduct the work. Thus a spirit of leadership is developed.

An athletic association has been formed. A baskethall has been purchased and at present many pupils are getting good exercise from this sport. Although no games have been played we hope to have several before the season is over. It is planned to hold school track meets for boys and girls in the spring and a baseball team is under discussion.

Small Numbers In Classes An Advantage

Personal supervision is given in each class through the fact that the classes are small in numbers. Blackboard work is a very convenient method of instruction, especially in the language and mathematics courses. It gives a fine opportunity for the teacher to observe the work of each pupil and to give personal attention just where it is most needed. In a larger school this would be impossible with the ordinary numbers of teachers.

The disadvantages of the small school are eliminated to a great degree through the method of alternation of courses and combination of classes. It allows a small teaching staff to give a variety of courses. Indeed this is the only way that the number of courses in the school could be given without hiring extra teachers. This represents a saving for which tax payers are always grateful. The combination of classes also represents a saving in the cost of instruction. It also shortens the break between eighth grade and High School. This year the seventh and eighth grades are with the high school again. The arrangement is very good as far as the pupils are concerned. It avoids congestion in the lower grades. This is of course is a distinct advantage both for the pupils in the lower grades and for the members of the seventh and eighth grades. The two higher grades are able to receive more attention in the High School room. Also there is a much better opportunity to synchronize the work of the eighth grade with the first year in High School. When the pupil returns to school in the fall he does not enter High School as a stranger for he has had the same teachers and is in the same room as formerly. Thus teachers are better able to link together the work of the eighth grade and the first year in the high school, and the break is distinctly shortened. The usual period of confusion at the beginning of the high school course is to a great degree avoided.

The School Plant

The town should be commended for improvement in the building. The changes made during the summer months are greatly appreciated by the pupils and teachers. A great forward step has been taken in installing the new toilets and system of running water. The new exit from the High School room has been found to be very convenient for two reasons. In the first case the occupants of the upper rooms are able to reach the toilets without leaving the building as would have been necessary had not this change been made. In the second case if fire breaks out this new door and staircase remove all danger of congestion and provide a rapid and safe method of exit. Fire drills have been rehearsed thoroughly and we can now empty the building from both ends very quickly.

The only criticisms of the building that we would make are that the window casings are loose and cost the town a fair amount each year through the extra coal used. Also the system of ventilation is unsatisfactory and should be remedied.

Mr. Jenkins, our janitor, has kept us very warm even through the coldest days of the winter. A large radiator is needed in one of the class rooms to do away with the waste attendant upon the extra coal used to send enough heat into this room with the small radiator now in use. The whole building has been kept neat and clean and Mr. Jenkins has been ever prompt and ready to do anything in his power for our comfort and the good of the whole school.

National Education Week

In accordance with the national custom of setting aside one week each year for a nation wide campaign for the support of education Amherst schools worked out a program. The pupils wrote and illustrated posters which were places around the village. We were very grateful to Superintendent H. C. Bales, and the Reverends Mr. Sibley and Mr. Fellows for short addresses to the school during this period.

On Friday, November 12, the last day of National Education Week, the school board granted the teachers of the district the day for the purpose of visiting and

inspecting methods of teaching in other schools. In the evening classes were conducted in all the grades. About thirty-five parents and other visitors attended this evening session. We hope that they will all come many times in the future.

Respectfully submitted, J. J. MORGAN, Jr.

February 5, 1927.

REPORT OF THE SCHOOL NURSE

To Mr. Harold C. Bales, Supt. of Schools, Amherst:

The following is the report of health work in Amherst Schools:

The usual health examination was carried on soon after the opening of schools in the Fall. A tabulated account of defects may be seen in Dr. Burns' medical report with the exception of the eye and ear examination which, due to the amount of work in other nursing activities, remains undone.

There were a large number of unvaccinated pupils at the opening of the school year. The responsibility of unvaccinated pupils was assumed by the health officer to whom a list of the same was given upon completing the examination.

The health work being done in the Amherst schools, especially the rural, is very effective as well as interesting. Through drawing, paper cutting and the learning of health rules attractive posters are made teaching about foods, drinks, cleanliness, and exercise. Talks on health are given, health stories read, and health rules learned.

It has been impossible to make a large number of home visits in Amherst as there is such a large territory to cover in visiting the schools alone. In the spring however, I hope to meet many more of the parents than I have up to the present time. At any time I am willing to assist in any correction of health and would be glad to have parents call at my office or communicate by telephone, in regard to their children.

Respectfully submitted, FLORENCE E. HAYWARD, R. N.

February 1, 1927.
